KEY PLAN

Key

- Land Registry Title - BM177997
- Indicative location for potential new structure or infrastructure required to improve the existing railway

This plan shows one or more options that we are considering as we develop full designs for the new or upgraded railway in this area. Where these cross your property (edged and lined green), this indicates the potential land that may be required if one or more of those options is selected and forms part of the final design. This is not the final boundary of the land that will be acquired or used for the purposes of construction or operation of the project.
